Nemelka Racing Pigeon Loft

[www.nemelkarpl.com](http://www.nemelkarpl.com)

**Note:** I put some notes on the pigeons as to how much I liked them according to my preferences. Obviously they all were OK or I wouldn't have sent them. Obviously as young as they were it is hard to tell what is really what, but I like to note for myself what I consider special pigeons when I ship them out to One Loft Races to help me remember them.

## Team 1

Primary Bird Name: Triple Threat (AU 11 NRPL 1008 BCC)

- Shipped to SCMDPR: May 10th
- Parents: [NL10-2040755](#) x [B08-2012093](#)

- Status: Never out of the loft
- Light: 18 hours of light from birth to May 1<sup>st</sup> then natural light only
- Flights Clipped: No

\*The South African Pigeon Mailing List that I am a member of puts in several teams to the SCMDPR from the members on the list. I was able to submit a bird to one of the teams this year. I will say that I enjoy the SAPML more than any other mailing list, pigeon publication, website, etc. out there. Super nice people and very information and helpful discussions – especially during the SCMDPR training/races!
